Towball Accessories

Introducing **BAK-RAK** ... the new load carrying system for vehicles fitted with towbars.

BAK-RAK base frame (700 x 600mm) includes towball fixing system
TUV Tested to 60kg capacity

Lighting board with 1.5m cable and mounting brackets for attaching lighting board to BAK-RAK frame

Lighting board mounting bracket (pair)

Single upright cycle carrier

Nylon cycle carrier stabiliser strap

BR001

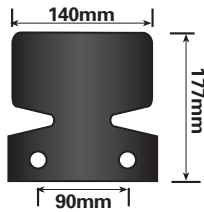

MP8551BR

BR003

RB1050

BC2099

Note: If the load obscures the vehicle's lights and/or number plate a suitable lighting board must be mounted on the rear of the BAK-RAK. Carrying cycles we recommend that a stabiliser strap is used to fully secure the cycles & to prevent excess strain on the cycle carrier frame when the vehicle is moving.
